

The Ashland Lions Club members are involved with many ongoing and past projects.

Improving the quality of life for adults & children in our community.

Visually Impaired Meetings

The Ashland County Aging Unit had a need to be filled. A group support meeting for visually impaired is held monthly. Rides are provided by the Ashland Lions Club.

Eye Bank Transport

This is a cooperative effort between Ashland, Washburn, Mellen and Iron River Lions Clubs to provide transportation of corneas to be used for transplant to the Lions Eye Bank of Wisconsin in Madison.

Wisconsin Lions Eye Bank

A Wisconsin Lions Club Project

Eyeglass Recycling

Our club decided to have our eye glasses Recycling Box at every Ashland Lions Club community function to remind people to donate their glasses.

Wisconsin Lions Camp Support

Each year Ashland Lions dedicates substantial amounts of money to help run the Lions Camp in Rosholt, WI

Prentice Park Cleanup

Our Lions Club volunteers to clean up city owned Prentice Park that is full of trails, playgrounds, artesian wells, wildlife habitats, ponds and sloughs. A potluck dinner was enjoyed by all that helped.

Diabetes Screening

Ashland Lions conducts free Diabetes Screening Clinics. Ashland Lions are committed to reducing blindness caused by diabetic retinopathy, through diabetes education and these free screenings. You may also drop-off eyeglasses in our donation box.

Children's Christmas Shopping Event

Ashland Lions Club take children Christmas shopping for their family members during the first few weeks of December. Children are identified by Ashland County Health and Human Services and local school officials. After shopping in downtown Ashland children wrap their gifts with the Lions while enjoying Christmas music. Later on, children meet with Santa & Mrs. Santa,

hot chocolate & Christmas cookies!

Diabetic Screening

Each spring the Ashland Lions Club sets up 4 stations at the local grocery store staffed with medical personnel to conduct screening for diabetes. This year we referred five people to their family physicians for further evaluation and possible treatment.

Glaucoma Screening

Lions members worked with representatives from Prevent Blindness Wisconsin to provide Glaucoma Screenings for senior citizens attending Senior Expo at the Ashland High School. The owner of Ashland Eye Specialists, screened and counseled people attending the Expo. Referrals were made for various reasons for the individuals to get further medical advice. This project was well received by event organizers and will probably become an annual event in August of each year.
